Permanent Work Permit in EU

PROFILE INFO

"Expressing my aim to pursue a career in engineering, I plan to begin my journey at university by specializing in web development. Focusing on the enhancement of design skills and aligning with relevant guidance is crucial to me. Equipped with training in web development and design, I dedicated a year to studying UI design and am currently enrolled in a 1.5-year web development course. Known for being highly motivated, friendly, empathetic, and determined, my passion lies in both design and development. Exploring color and design concepts brings me great pleasure."
